I. New Business

- Stanton Prelim Design -
 - What will be driving the design will be the leaching field and park above. The best way to accommodate may be a grading plan. This plan could be handed out to Hancock engineering so that they can integrate it into their plan.
 - 240K is a preliminary cost. Many details drive costs, including small details such as water fountains, benches etc .
 - Estimated shade structure \$5000. The parking lot is listed as asphalt.
 - subtle grading issues have not been taken on yet by the engineers. One issue being - neighbors to the north east requested a sound bearing fence.
 - Sound barrier - was never an official commitment and can be left on things to consider. (Tom)
 - New plan should be introduced to Hancock
 - Tom will reach out to Kelly and set up a meeting along with someone from Hancock.

- Stanton Design Grant - committee to review design and the cost line items by January 19th meeting in preparation for submission to the Stanton Design Grant.
- Update from AHA meeting (Fred) - Dec 15th - the zoning board approved AHA permit.
- Communications Update (Clare) - Waiting on the next Friends meeting.
- Friends of ACDP and Financial Report (Cathy) - Library is not booking any public meeting at this time and we will find a different venue. Starting to plan for different ways to raise money.
