Some slides still have information to be updated. Suggestions were made to remove the tax rate from the Taxpayer: real estate assessment slide.

Ms. Friedrichs commented that home values can increase as a result of long range planning.

Taxpayer: other considerations and recommendation slide will be removed.

Final approval will wait until more members of the Finance Committee are present

Mr. Noone asked Select Board member, Mr. Martin about the Townwide electrification plan. The plan added up to approx. \$62m while the utility costs didn't go down. Mr. Martin responded that near term projects will be integrated into the Capital Improvement Plan (CIP). Some of the electrification would be for things that would need repair or replacement regardless, such as HVAC units. In addition, there are likely to be grants available.

Ms. Andersen asked if a chart of year-over-year tax bill increases should be included in the POV. She also commented that the tax impact per CIP project may be helpful.
