**2. Transfer Station and Curbside Analysis Presentation**

- How many of you use the transfer station?
  - Most have a sticker and enjoy taking advantage of the mulch, composting and swap shop.
- How do you feel about your current trash and recycling services?
  - Private service (overpriced, convenience, timely)
  - Sticker (busy on Sat, limited to just one car)

- Do you think we are missing any environmental considerations?
  - None we could think of
- Hybrid option to use transfer station for recycling special items etc. but still have the convenience of curb side pickup.
  - This is a popular option, and the majority are amenable.
- Should the transfer station collect something else?
  - Increase donation items that can be sorted.
- Any addition to curb side pickup?
  - Leaf pickup, composting, Christmas tree, donations.
- Feedback: Who provides the barrels, flexibility with the pickup, cost effective as compared to private companies, frequency of pick up.
