## Town of Acton Announces Rate Changes to Resident, Reserved and Commuter Rail Parking

ACTON -- Town Manager John Mangiaratti reports that resident sticker, meters and reserved parking costs will increase later this summer.

On Monday, July 15, the Board of Selectmen voted to increase the cost of Acton resident stickers, commuter lot parking meters and reserved parking. The decision followed a discussion at Monday's selectmen's meeting on the South Acton Train Station Advisory Committee's (SATSAC) recommendations and the Nelson Nygaards Commuter Rail Parking Study regarding the town's parking program.

Recommendations from the committee included increasing resident sticker rates and daily metered rates to mirror the rates being charged by neighboring municipalities, and maintaining a lottery system for vacant reserved spaces.

Beginning on Aug. 1, resident sticker prices will increase from \$100 to \$200 per year and the Central Street Commuter lot daily rate will increase from \$5 per day to \$6 per day.

Beginning on Sept. 1, the reserved parking at the 1 Maple St. and 19-21 Maple St. lots will increase from \$100 per month to \$175 per month.

Jones Field Reserved parking will remain the same at \$100 per month.

"Our parking rates are currently below what other municipalities similar to Acton charge, and we need to increase our rates to continue to maintain and improve our parking services. This includes the new parking lot at 19-21 Maple St., which the Town acquired on July 1 after Acton voters approved the purchase at the 2019 Annual Town meeting," Town Manager Mangiaratti said. "The Board of Selectmen will continue working with the SATSAC and Transportation Advisory Committee in the coming months to further improve and assess the future of our parking programs."

Current renters will be allowed to retain their spots indefinitely, and as vacant spots become available, new renters will be selected from the applicant pool.

Applications for reserved parking will be accepted year round. For more information on parking regulations, to apply for reserved parking, or to access study reports, visit [actonma.gov/parking](https://actonma.gov/parking).

As the town continues to evaluate its parking programming, the Board of Selectmen, SATSAC and Transportation Advisory Committee will review the SATSAC's remaining recommendations regarding remote parking, shuttle policies and pricing, and the potential to source new remote parking options.
